Handwritten message

The reason I started to donate was to help other families in need. It is to my greatest pleasure to pass on the gift of life. In any and all intentions, live and raise the best life possible.

Meeting the donor

our impression

Hector is tall and has a very fit and lean muscular build. He keeps in shape by being a competitive wrestler and participating in a variety of outdoor activities like surfing and hiking. Hector truly embodies the California vibe with his laid back, happy and outgoing personality. He has brown hair that he keeps short and styled and matching round dark brown eyes. He has a strong jawline and full lips that reveal straight white teeth and a great smile. Hector is always tan which accentuates his attractive features.

Hector is currently a student at Arizona State University studying Agricultural Business. He is very dedicated to his studies and works very hard to achieve his goals. His dedication also extends to his wrestling career. He has been competitive in the sport since he was a young boy and hopes to continue that as a career as well. Hector is incredibly easy to get along with and easily engaged in conversation with everyone he meets. Hector is always smiling and rarely if ever in a bad mood. We enjoy having him on our program and expect great things from him.
