# Donor essay

## Why do you want to be a donor?

To be able to help families have kids.

## Describe your relationship with your family. How has your family shaped your values and who you are today?

I don't have a strong relationship with my family, but they definitely shaped who I am. Whether it be directly, or me acting conversely to their expectations. I was a very rebellious person growing up (to a fault), but as an adult I see how they really helped shape my drive and self-worth.

## What makes you unique?

I'm a very creative person and I bring that creativity to art but also to business. I usually offer creative solutions and perspectives to the conversation.

## What are you most proud of and why?

My service in the military. I'm glad that I took the time in my life to serve the country and I'll always have that experience and pedigree with me for the rest of my life. It's like being a part of another family.
