Handwritten message

Thank you for looking at my profile and selecting me. I can't describe how honored I am that you would select my genes to pair with your own or another donor and then to take the child and care for them as your own. To know that you want to use my genes and see what they create and then spend the time and effort it takes to help them grow into an adult makes me wish I could meet the wonderful people that will be taking care of them, thank you. I hope that my genes will serve you well and help you gain the family that I'm in search of.

Donor, 10603

Meeting the donor

our impression

Dwayne is a kind, empathetic, and inquisitive guy. He is wise beyond his years and is a great listener while maintaining a personable attitude. He is tall, with thick, curly hair, brown eyes, and a nicely defined jaw line. Dwayne was previously a marine and is a trained mechanic but is looking forward to pursuing larger goals for himself. We admire his strength and perseverance and cannot wait to hear what is next for him in life.

In his free time, Dwayne loves to spend time being active in the gym, as well as hiking and rowing. He maintains healthy friendships and is compassionate to those around him. Dwayne joined our program to be able to help others create families of their own, and we are thankful to have him!
