Handwritten message

First, I'd just like to start off by Congratulating you both on becoming Parents.

I'd also just like to say that I hope this brings you all the happiness, fulfillment & joy. I thank you from the bottom of my heart for taking on the role of raising this child.

Please teach them to be loving & kind, with integrity & respect, & strong & resilient. Teach them to live life with passion & purpose, & instill good values into them. Empower your child to become someone of great impact so that they may one day become great leaders who add value to those around them.

Thank you,

Meeting the donor

our impression

Pendleton is a wonderful addition to our donor program. He is thoughtful, empathetic, determined, and strong, mentally, and physically. Standing at under 6ft, he has a fit and muscular build. Mind and body fitness is extremely important, and he makes it priority in his life, and he regularly trains in martial arts, strength training etc. Pendleton has soulful, expressive brown eyes and matching thick and wavy brown hair. He has a round face, complimenting full lips and is a handsome donor.

Pendleton is currently studying sports medicine and plans use those skills to help others get not only into fitness but to also overcome any limiting physical experiences like he did in his own life. He has used his personal experiences with a life altering injury to not only better himself, but to also lend a hand to those in need. Pendleton has a large family and contributes his integrity and determination to his upbringing. We believe Pendleton is a fantastic choice for anyone looking for their donor.

Personal characteristics

What is your ultimate ambition or goal in life and how do you see yourself in twenty years?

My ultimate goal in life is to impact and influence people all over the world. After overcoming incomplete quadriplegia, it clarified my purpose in life which is to add value to others. Sharing my story and overcoming extreme hardship, helping, and empowering people to become the best version of themselves physically, mentally, and spiritually. I was to show people what is possible to achieve when you have an unbreakable mindset, being consistent, and dedicated to your purpose and serving others, plus breaking through all their limiting beliefs. In 20 years, I will be speaking on stages across the world, and will also have multiple business and a foundation to help spinal cord injury patients. My business will revolve around fitness, health, and wellness.

Donor essay

Why do you want to be a donor?

Because I would like to help families that are not capable of conceiving.
